

Level 2:

This is OC (olio capsicum) pepper spray for Level 2 security guard registration in the State of New Mexico. This class will be conducted to Sabre Red OC standards. Students are expected to be on time in the classroom and will bring a pen, pencil, and notebook. No equipment or weapons are required for this class and will not be allowed in the classroom. A closed book test on the effects and usage of olio capsicum (pepper spray) will be conducted at the end of the class and an 80% on the test is required.

Contamination with the product is no longer required to meet Sabre red standards, but the contamination and de-contamination of students is recommended for purposes of liability should the individual find themselves in a court case in the future. If the student has any medical or respiratory problems such as asthma, either chronic or temporary, they will be allowed to undergo contamination. If a student cannot or chooses not to go through the contamination process, they should at least observe to gain familiarization with the effects of the product.

A full training day will be about seven hours of training time depending on the number of students. A minimum of three students is required for the class to be held, and a maximum of six will be seated at one time. The cost of the training is \$96.00, \$103.86 with NM tax included.
